EXPERIENCE

BJSS, New York, NY

Software Engineer

July 2022 – *Present*

- Full-stack development across several clients building and consuming APIs, database design, infrastructure as code, managing pipelines and deployment for multiple environments, rapid UI-feature development, and unit testing.
- <u>Currently using</u>: Agile, BDD + CDD, TypeScript, C#, Go, AWS Lambda, Terraform, Docker, Vue 3 & React

Blue Cross Blue Shield, *(remote)* Durham, NC

Software Engineer

December 2021 – July 2022

- Web and Mobile development (mix of TypeScript, Swift, and Kotlin).
- Building and consuming APIs (GraphQL), mobile deployment (App store & Google Play Store), Fastlane for automation and unit testing.

NTT Data, Morrisville, NC

Software Engineer

August 2021 – December 2021

- Building and consuming APIs, CMS development leveraging a mix of Java, ColdFusion and HTML templating, and unit testing.
- Implemented brownfield portal in Vue 2.
- Design and Prototyping with Figma.

Glitnir Ticketing, New York, NY

Software Engineer

September 2017 – August 2021 *(full time)*, then, August 2021 – *Present* *(part time)*

- Android development and management (MC40 scanners, Java/Kotlin).
- Building and consuming APIs, PHP HTML templating, Database design + management, GCP (assisting in cloud management), implementing brownfield portals, building internal tools (Desktop and Web) and unit testing.
- Automation scripting, and migrated internal tooling from Python to Go.
- Graphic Designing.

SKILLS

Languages
TypeScript & JavaScript(es6+), C#, Java, Python, Go, Kotlin, PHP, Terraform, ColdFusion, Bash, SQL, HTML5, SCSS

Paradigms
Functional & Object Oriented

Libraries and Frameworks
ReactJS, Vue 2 & 3, .NET Core, gRPC, OpenAPI, Jest, JUnit, NUnit, Vite, Testing Library, Vue test utils, HTML templating, Gulp, State management solutions, and many more.

Tools and Platforms
Azure DevOps, Jira, Git, Github, Gitlab, Redis, Jenkins, MS Power Platform, AWS + AWS Lambda, GCP, Fastlane and more.

Design and Methodologies
Illustrator & Photoshop, Figma, MVC, TDD, BDD, CDD

Personal and Learning
I enjoy sharing knowledge with others, mentoring and hosting lunch-and-learns.

Currently working towards AWS certs (*Solutions Architect Associate*), and learning the path of Data Engineering
